We pride ourselves on our collaborative approach and value a culture of collegiality, transparency and innovative thinking. CSR & Community Projects

Socially Responsible

We take our role as a corporate citizen in the community very seriously. Our policy is to promote positive development in education, literacy, sports and the arts, while operating with due consideration for the environment at all times.

Environmentally Responsible

We continue to work hard to minimise the impact that we have on the environment. We have invested in the latest IT solutions, including video conferencing and secure data transfer in order to reduce our carbon footprint.

Our people around the world are encouraged to consider the impact of their daily business and we strive to move the Maples Group towards full environmentally friendly operations, through gradually implemented measures and staff education.

The Maples Foundation

The Cayman Islands-based Maples Foundation supports projects benefiting young and old in the communities where we work. The Pines Retirement Home in the Cayman Islands, now being rebuilt

as a state-of-the-art complex, is one such beneficiary. Other projects that have attracted the Foundation's support include the Savannah Primary School enrichment programme and the Lighthouse School, which educates children with special needs. The Maples Foundation welcomes requests for assistance from a wide range of community groups.
