Fund Services

+1 646 918 5950

Brendan is responsible for driving the growth of Maples Fund Services' fund administration business across North America. He brings over 20 years of experience in the asset management industry and specific expertise in hedge fund and private equity strategies and fund administration. Brendan takes a collaborative approach to working with clients, acting as a trusted partner to equip them with the tools they need to succeed. He has authored multiple articles on various topics relating to private equity fees and expenses, as well as regulatory issues and the implications for US fund managers.

Background

Previously, Brendan was the Managing Director of the North American business at Augentius, a global specialist independent private equity and real estate fund administrator. Prior to that, he led the sales and marketing team for SC Fundamental, a long/short equity hedge fund. He has also held various sales and relationship management positions within alternative and traditional asset management firms with a focus on capital
