Registered Office, Agent & Domiciliation Services

Registered Office, Agent & Domiciliation Services

Fulfilling all statutory requirements across jurisdictions, combined with physical meeting spaces and experienced support staff so clients can take full advantage of a local presence at their convenience. Each jurisdiction has differing statutory requirements in respect of local obligations for entities. The Maples Group provides registered office, registered agent, domiciliation agent and company secretarial services in the jurisdictions in which we operate, as required. In addition, we provide physical meeting spaces to ensure clients can conduct business in a comfortable and professional environment. We are also able to provide companies with a local presence and experienced staff that deliver the convenience and support necessary for successful local operations.
