Insurance

When you are looking for legal support for insurance vehicles, you need commercially focused advice from a firm acknowledged by its institutional client base as a true market leader. We offer a range of specialist legal services for insurance clients across the British Virgin Islands, Cayman Islands and Ireland.

We are specialists in insurance vehicles as well as alternative risk transfer such as catastrophe bond vehicles and other insurance linked products. Our experts are also experienced in establishing insurance companies, insurance management and broker operations.

Our services include:

- Regulatory compliance
- Licensing of insurers, managers and brokers
- Captive insurance
- Catastrophe bond and other special purpose insurers
- Reinsurance and sidecars
- Corporate advisory

Our team has a real depth of knowledge that can add value from the beginning. In the [Cayman Islands](#), for example, we enjoy an excellent relationship with the Cayman Islands Monetary Authority, local audit firms and the local insurance managers association. We assisted with the drafting of the Cayman Islands insurance laws, related regulations and amendments and have unrivalled understanding of the regulatory environment. We continue to shape the insurance sector by working on innovative products.

In addition, our [Dispute Resolution & Insolvency](#) team has a deep understanding of the needs of insurers and policyholders in case of dispute resolution. We also advise across the whole spectrum of [corporate](#) law, from corporate formality / corporate governance at one end, to cross-border mergers and acquisitions of insurers at the other end.

Through our [Fiduciary Services](#) team, the Maples Group provides a truly comprehensive approach to insurance management by delivering a full range of services via a global team of professionals. Our service offering seamlessly combines accounting, fiduciary, administration, corporate, company secretarial and board support and [regulatory and compliance services](#) to create a best-of-breed solution for insurance entities.
