Permanent Office Solutions

Permanent Office Solutions

In a complex global environment, our full service permanent office solutions and back office functions include local client services teams and support to help manage operations where business is done. In today's complex global landscape, large institutions and managers increasingly are looking for comprehensive operational support services in the jurisdictions in which they do business. In addition, there is increasing demand for dedicated on-the-ground client service teams to help manage operations locally, allowing in-house client teams to focus on their core business and increase operational efficiencies.

The Maples Group provides full service permanent office solutions and back office support to assist clients with establishing their operations around the world. We streamline all aspects of the establishment and maintenance of an outsourced office, delivering unrivalled support from our expert local teams in key jurisdictions and partnering with clients to create, implement and oversee ongoing integration requirements. Our dedicated professionals have first-hand financial services industry experience with backgrounds in law, accounting, banking, corporate finance, fund administration, investment management, risk management and treasury services. We maintain a commitment to a tailored approach that fits the individual needs of each client.
