### **Economic Substance Return**

For the purpose of this sample PDF, mandatory fields are marked with an \* Whereas fields marked with (\*) are only mandatory in certain cases. When the form is available on the DITC Portal mandatory fields will automatically display as the form is completed.

The International Tax Co-Operation (Economic Substance) Law ("ES Law") requires every relevant entity ("Entity") that is carrying on a relevant activity to satisfy the economic substance test in relation to that relevant activity ("ES Test").

Each such Entity must prepare and submit to the Tax Information Authority ("Authority") an economic substance report ("ES Return" or "this form") for the purpose of the Authority's determination as to whether the ES Test has been satisfied in relation to that relevant activity.

The ES Return must be submitted within twelve months after the last day of the end of each financial year ("Period") commencing on or after 1 January 2019. If an Entity conducts more than one relevant activity during a financial year then it must prepare and submit a separate ES Return in relation to each such relevant activity.

Please refer to the <u>'Economic Substance For Geographically Mobile Activities Guidance'</u> issued by the Authority for information about the economic substance requirements.

Please refer to DITC Portal User Guide for further information on this form.

All monetary amounts should be provided to the nearest whole number. Zero ("0") will be acceptable for all fields requiring a numerical response.

INSERT NAME OF THE SP FOR WHICH THIS FORM RELATES TO

Once the Entity name is selected from the drop down list and the 'Validate Information' button is pressed, the ES return will pre-populate with certain information for the Entity.

If change to Entity name is required, this will need to be done through the General Registry.

Validate

An SPC must specify the SP on whose behalf it is submitting the ES Return in the Segregated Portfolio name box. A separate ES Return must be submitted by the SPC for each SP that is required to file an ES Return. Likewise, an ES Return is required in respect of each relevant activity (i.e. one SP carrying on two relevant activities is required to submit two ES Returns). Alternatively, if an SP is tax resident outside the Islands then the SPC must complete and submit the Tax Resident Outside the Islands form in respect of that SP. Refer to point 19 on the <a href="Practice Point Document">Practice Point Document</a> for more details.

The first Period will be the first financial year commencing after the operative date of the ES Laws. The Entity should refer to both the ES Law and The International Tax Co-Operation (Economic Substance)(Prescribed Dates) Regulations, 2018.

The Responsible Person may appoint secondary users on the DITC Portal.

If change to GR number is required, this will need to be done through General Registry.

This field is always pre-populated with "NOTIN" on the ES Return because the Islands do not issue Tax Identification Numbers.

The relevant activity is pre-populated to reflect the selection made on the ESN (or first one stated if more than one) but can be amended here. If the Entity has more than one relevant activity then it must select one relevant activity for the purpose of this ES Return and complete a separate ES Return for each one of its relevant activities.

The ES Law provides that a "pure equity holding company" means a company that only holds equity participations in other entities and only earns dividends and capital gains. Where No is selected the Entity will skip to "Other" section below.

#### Relevant Income

Currency used to complete this ES Return. \*

USD etc.

Annual Income: Total income for the Period. \*

Insert Monetary Amount

The Entity must use one currency for all financial data in the ES Return.

The OECD NTJ schema uses the term "Annual Income". This element should contain the total annual gross income of the Entity (i.e. not limited to relevant income).

The OECD NTJ schema uses the term "Gross Income". The ES Law defines relevant income as follows; "relevant income", in relation to an Entity, means all of that Entity's gross income from its relevant activities and recorded in its books and records under applicable accounting standards. For the avoidance of doubt, relevant income for the purposes of the ES Law is gross income and not accounting income/profit. Gross income is equal to gross receipts/gross revenue, whether in the form of cash or property, which the Entity derived from its pure equity holding company business.
