Client Advocates

We have an excellent relationship with Luxembourg's financial regulator, the *Commission de Surveillance du Secteur Financier* ("CSSF"), which enables us to ensure a smooth and expeditious process for clients.

Working daily with the CSSF across a wide range of departments fosters our close relationship and this rapport is a key element for any client in the investment funds space in Luxembourg.

Global Presence

Working alongside our offices in other key financial markets, we have an unrivalled view of the global funds and investment management sphere and can leverage this unique perspective for your benefit. Our multi-jurisdictional capability allows us to provide unbiased advice to guide clients to the most appropriate domicile in which to structure your fund or establish an investment manager, but also to give our clients the advantage of working with a single team capable of advising on a variety of cross-border structures and transactions.

In addition to our legal services, the Maples Group's offering is complemented by specialists covering fiduciary services, fund services, regulatory and compliance services and entity formation and management services.
